Profile

I am a Full-Stack Developer with experience building scalable web and mobile applications, backend services, and data driven solutions. I work with React, Node.js, Spring Boot (Java), Kotlin, Jetpack Compose, MongoDB, MySQL and modern other technologies to deliver secure, high-performance applications across web and mobile platforms.

Currently working as a Mobile & Backend Developer in the financial technology sector, contributing to enterprise banking applications used by thousands of customers. Experienced in designing RESTful APIs, implementing authentication and authorization systems, integrating third-party services, optimizing SQL queries, and supporting mission-critical transaction processing systems.

I also leverage AI-powered development tools and modern workflows to improve productivity, code quality, and problem-solving. With a strong foundation in Data Structures and Algorithms, I excel in solving complex technical challenges and collaborating with teams to build impactful solutions.

Skills

Languages: Java, Kotlin, JavaScript, SQL

Mobile: Android SDK, Jetpack Compose, XML, Kotlin, Java, React Native

Frontend: HTML5, CSS3, JavaScript, Angular, Bootstrap, React

Backend: SpringBoot (Java), Node.js, Express.js

Database Technologies: MongoDB, Firebase, MySQL, PostgreSQL

Cloud & DevOps: AWS EC2, Docker, GitHub Actions, CI/CD, Firebase Hosting

Tools: Git, GitHub, Postman, Swagger/OpenAPI, IntelliJ IDEA, Android Studio, VS Code

Professional Experience

- **BACKEND & MOBILE DEVELOPER**

Providus Bank

Jan 2026 - Present

- Developed and maintained enterprise mobile banking applications using React Native, delivering secure and seamless digital banking experiences.
- Designed, built, and maintained backend microservices and REST APIs using Spring Boot (Java), supporting customer onboarding, transaction processing, authentication, and account management services.
- Wrote and optimized complex SQL queries to retrieve, analyze, and troubleshoot customer transaction records during application support and incident resolution.
- Collaborated with product managers, QA engineers, DevOps teams, and business stakeholders to deliver production-ready banking features and system enhancements.
- Implemented secure authentication and authorization mechanisms while adhering to banking security standards and compliance requirements.
- Monitored, investigated, and resolved production issues, ensuring high system availability and minimal service disruption.
- Contributed to performance optimization initiatives that improve API response times, database efficiency, and application stability.
- Leverage AI-assisted development tools to accelerate implementation, automate repetitive engineering tasks, and improve code quality.

- **IT SUPPORT / MOBILE DEVELOPER (INTERNSHIP)**

Nigerian National Petroleum Corporation (NNPC 18, Ikoyi Lagos State)

Jan 2024 – Jun 2024

- Supported enterprise IT infrastructure by monitoring, troubleshooting, and maintaining Windows-based systems.
- Assisted in database administration, backup management, and data maintenance activities.

- Applied Data Structures and Algorithms concepts while solving software and infrastructure-related technical problems.
- Performed user support, incident resolution, and system diagnostics to ensure business continuity.

- **FULLSTACK & MOBILE DEVELOPER**

Babcock University (Ilishan-Remo, Ogun State)

Sept 2023 - July 2025

- Led frontend and backend development of a Final Year Repository System using Bootstrap, Node.js, Express.js, and MongoDB.
- Designed and implemented authentication, role-based authorization, and secure document management features.
- Developed REST APIs consumed by web and mobile clients.
- Built and maintained the backend infrastructure for the Me App Single Sign-On platform, centralizing authentication across multiple university services.
- Integrated MongoDB databases and optimized data access patterns for improved application performance.
- Managed CI/CD workflows using GitHub Actions and Git version control.

- **BACKEND & MOBILE DEVELOPER**

Jan 2024 - Present

Freelance/Personal Projects

- Developed and deployed backend systems using Node.js and Spring Boot, focusing on scalability, data integrity, and performance optimization.
- Designed and documented APIs using Swagger for mobile app integrations.
- Containerized services with Docker and deployed to AWS EC2 and Firebase.
- Integrated mobile clients (Kotlin/Java) with REST APIs for authentication and data synchronization.

Education

BSc in Computer Science (Information Systems) | Babcock University, Ilishan-Remo, Ogun State | 2021 – 2025
Second-Class Upper

SSCE | Oritamefa Baptist Model School, Ibadan Oyo State | 2015–2021

FSLC | Richmab International School, Ibadan Oyo State | 2007–2015

Certificates

Oracle Autonomous Database Professional | Coursera | June, 2026

Android Application Management | New Horizons | July, 2025

Oracle Database 12c Fundamentals & Admin Workshop | New Horizons | July, 2025

Oracle SE8OCA & OCP | New Horizons | July, 2025

CompTIA A+ 1 & 2 | New Horizons | July, 2025

Fundamental of Computer Security | New Horizons | July, 2025
